

Access and Authentication

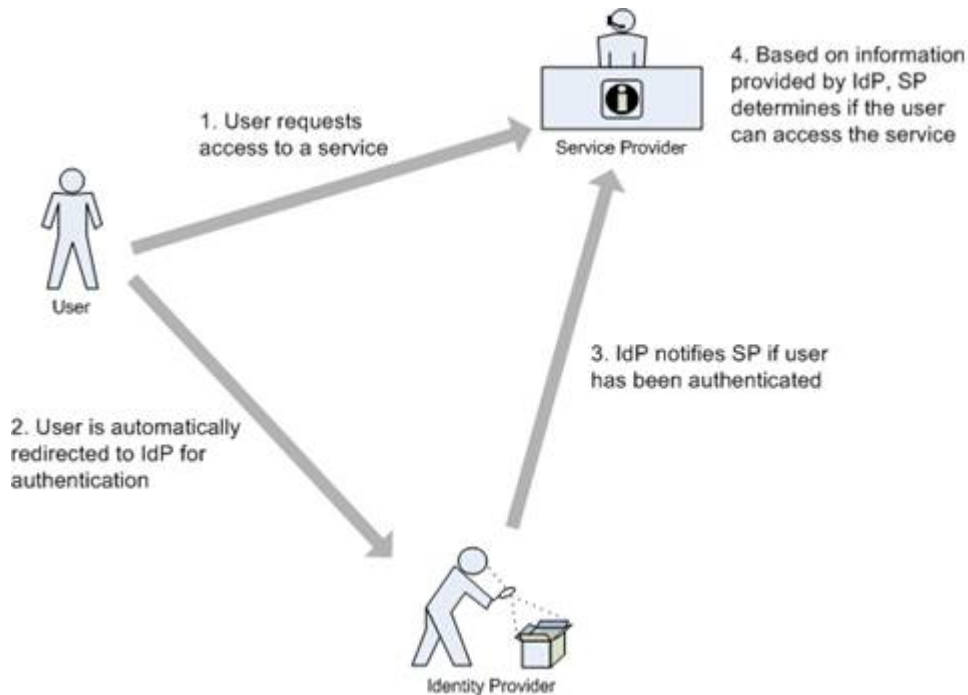

Owen O'Neill

Context

- JISC partnership with Australia
- Common challenges
- The tertiary sector and vocational education in Australia

Current thinking...

National activity to date

- Report: Towards a VET trust federation
- Stakeholder consultations
- Set of use-cases published

What's happening now

- National Learning object repository network
- Moving to being a “service provider”
- Drivers: licensing, single sign on, purchasing and transacting
